It's getting kinda boring now, you need to add some new buildings and allow us to buy more of the fruit and trees and give us new things to make. I wasn't one of those in about 4 levels anymore. You need to keep it fun or I Could move on. Let's have some Halloween fun.. You should have some more stuff when you have to do some more stuff To the higher level because it's really boring now. I haven't been able to make anything or buy trees anymore and all the characters have jelly and it always takes to get that many. You should have them so we can buy them with coins or when you reach a certain level it's a prize you have to make. You have to start having more to do in this app and things have to be for different holidays. Geez please do something soon, I do not want to stop playing but I am very bored because I can not do anything else It's a really neat little game that somehow takes me back to the days of roller coaster tycoon (1. and 2). Building a city and making money is always a pleasure, while you do so you can continue to develop your qualities, and it's all made better that SpongeBob is the theme of the game. That being said, there are some serious issues in this game that need to be resolved (or some of those issues seem). In-game sounds turn off (especially when going to the city of Bd) and tapping accuracy isn't calibrated very well (try tapping money or food bubbles and either you miss or you end up opening the business that happened behind it). With the latest update, I've noticed that once the game is played by, when you go back to play a second time after closing the game, it completely ignores your saved data and tries to start a new game. One reviewer commented that deleting and reinstalling the app fixes the problem. For me, it's a go-to fix, and then came back trying to start a new game. Therefore, it seems that the new update makes it difficult for the app to access the server to get game data. If these issues can be fixed, and if the jellyfish land next to the fields (by the sea/sea). Well, don't get me wrong, I love sponge, and when I found this game I was happy. And after only 2 days, I'm at level 13. But the more I played the game, the more bugs I found. So I'm going to list the bugs I found and hopefully you'll fix these in the near future. Squid: FuTuRr! Anyway, the first bug I found seemed to be characters'. Say I left Spongebob in my undie outfit, when I leave her at her, log in the next day, and turn her back to normal, she'll be all chunky and the textures were crapped up. The second bug is rented. Say I have to do something to everyone, and come back the next day. Only characters will have rents available, not buildings and homes. The final bug is patchy bikini bottom. I love visiting patchy bikini bottoms because that's how good it is. But here's the thing. When I first saw my bikini down, I had a message on screen saying that I could come back and look for buried treasures. I came back the next day, and guess what? No treasure at all. now Not a complaint, but I thought I would say it anyway. Jelly. Now I talk family stock and I can't buy jelly or coins, which makes it so I earn coins and jelly from scratch. In addition to these issues, this is actually the best Sponge Mobile game on the market. Thanks in advance, Kienan_Gamer117 developer.
